

Q1) Given a multi linked list given below. Flatten the linked list row wise and column wise.

Output- row wise [1,2,3,4,5,6,7,8,9,10,11,12]

column wise-[1,6,7,10,11,12,2,3,8,9,4,5]

Q2) a) Create a sparse matrix using list of list. Print which row and column is least sparsed.

0	0	2	0	3
0	0	4	0	0
0	0	0	0	0
0	1	5	0	0
0	0	0	0	4

b) Take a sparse matrix as input from user. And print which row and column is least sparsed.
